

February 2024

Michel Moravia will be leading a regulatory workshop on February 27<sup>th</sup> at Evolve, a Northeastern University Accelerator focused on working with early-stage life science and healthcare ventures.

**“QMB understands the effort and dedication required to make startup ventures successful. We see such opportunities as a new way to reach out and collaborate with a new generation of innovators and disruptors in life sciences. We want to help them with their regulatory strategy and provide guidance so that they succeed...”**

Early-stage companies who will be participating at the Evolve, Northeastern University event include:
